

How to FIND our Facebook LIVE VIDEOS

1) You will find the link—titled **Live Video**—in the **Explore** section of our FB page. You may need to click on **Show More** to reveal it.

2) You can save time and head straight to the Facebook Live page from anywhere on the web by entering the service's URL in your browser's address bar. The URL is [facebook.com/live](https://www.facebook.com/live) and search for **Farmington Valley Jewish Congregation**.

3) One of the best ways to make sure you never miss a live stream from someone you follow is to enable live video notifications. To turn on notifications for Facebook Live, click on the small arrow in the upper right-hand corner of your Facebook home screen, then head to: **Settings > Notifications > Edit** and toggle **Live Videos** to **On**.

4) RSVP to our event in advance and you will get a FB notification when we go LIVE! Under the date and title of the **event**, you'll see a button that gives you the response options. For a public **event**, your choices are "Interested" or "Going." Select the appropriate option from the drop-down box.
